Our Services

COMPLETE PROTECTION

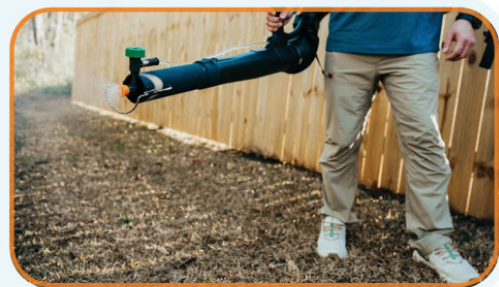

GENERAL PEST CONTROL

Bi-monthly barrier protection for your home. We target 50+ common pests inside and out using our TripleThreat Defense™ approach.

MOSQUITO CONTROL

Monthly treatments from March–October that reduce mosquito populations so you can enjoy your outdoor spaces again.

TERMITE BAIT STATIONS

Trelona® Advance Termite Bait Stations (ATBS) provide continuous monitoring and prevention against subterranean termites.

BUNDLE & SAVE

Combine General Pest Control, Mosquito Control, or Termite Stations for year-round savings!

🌐 **COASTALCAROLINAPEST.COM**

TRIPLETHREAT DEFENSE™

Our proven 3-step protection system

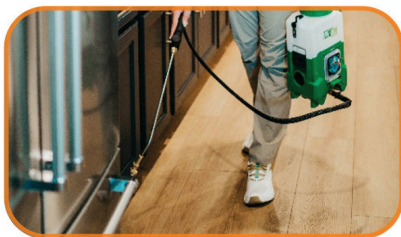

YARD (PERIMETER)

We start by treating your yard with a granule insecticide to create a protective barrier against pests where they start & before they reach your home.

STRUCTURE (FOUNDATION)

We then create a second line of defense around your home's exterior by using a liquid insecticide to block pests at their entry points. (We can't stop them from trying, we can only punish them for trying!)

INTERIOR AS NEEDED

We address common household pest activity inside your home as needed to keep your space comfortable.

**THREE STEPS. TOTAL PROTECTION.
YEAR-ROUND PEACE OF MIND.**

Common Household

PESTS IN SOUTH CAROLINA

A quick homeowner guide to major pests and occasional invaders

MAJOR PEST CATEGORIES

1. Cockroaches

- German Cockroach
- American Cockroach
- Smokybrown Cockroach
- "Palmetto Bugs"

2. Ants

- Imported Fire Ant
- Argentine Ant
- Carpenter Ant

3. Spiders

- Black Widow
- Brown Widow
- Wolf Spider

4. Stinging Insects

- Yellowjackets
- Paper Wasps
- Bald-Faced Hornets

5. Fleas

- Cat Flea
- Dog Flea
- Wildlife Fleas

OCCASIONAL INVADER PESTS

These pests may wander indoors due to moisture, weather, or seasonal changes.

Centipedes

Millipedes

Earwigs

Silverfish

Pillbugs /
Sowbugs

Crickets

Springtails

WHY IT MATTERS

South Carolina's warm, humid climate creates ideal conditions for many household pests.

Knowing the most common pest categories can help homeowners identify issues early and seek the right treatment.

QUESTIONS OR CONCERNS?

We're here to help keep your home protected year-round

WHAT TO EXPECT

Your Recurring Pest Control Plan

Thank you for trusting **Coastal Pest Control** to protect your home! **Our goal is simple:** keep pests outside where they belong. **Here are a few things to expect with your recurring service.**

1

PEST PRESSURE

Sometimes seeing activity means the treatment is working.

You may notice a **temporary increase in pest activity after a treatment. This is normal!** Professional pest control products work differently than many over-the-counter sprays. Instead of simply killing pests on contact, our treatments are designed to provide **long-lasting, residual control** that pests encounter over time.

✓ What's Normal?

- An occasional bug here or there between services
- Increased activity shortly after treatment
- Dead or dying insects around treated areas

✗ What's NOT Normal?

- Consistent or increasing pest activity
- Active ant trails inside your home
- A pest problem that doesn't improve after treatment

If something doesn't seem right, give us a call! Your recurring service includes support between regular visits.

2

APPOINTMENT TIMING

We keep your protection on schedule.

General Pest Control:

Approximately every **60 days**

Mosquito Control:

Approximately every **30 days** during mosquito season

Your appointment may occur a **few days before or after** the target date due to weather, holidays, scheduling needs, or other unexpected circumstances.

A small adjustment will not affect your protection.

3

EASY BILLING

You only pay when we complete your service.

For bi-monthly General Pest Control, your monthly plan price is combined and charged **when your scheduled service is completed.**

Example: \$38/month Plan

May — \$38

June — \$38

Service Charge: \$76

There is no separate charge during the month we do not visit.
